

Maddula Dinesh Reddy

AI Engineer | Generative AI | AI Automation | Python

+91-7893380832 | madduladineshreddy78@gmail.com | LinkedIn | GitHub

Professional Summary

Computer Science and Engineering (Data Science) student focused on **AI Engineering, Generative AI, LLM applications, and AI automation**. Hands-on experience building full-stack and AI-enabled applications using **Python, JavaScript, REST APIs, MongoDB, React.js, Node.js, prompt engineering, and machine learning fundamentals**. Developed multiple real-world software projects and a **GitHub PR Code Reviewer prototype** exploring LLM-based code analysis and intelligent automation. Seeking AI Engineer, Generative AI, AI Automation, or AI/ML internship opportunities.

Education

Sphoorthy Engineering College	2023–2027
<i>B.Tech – Computer Science and Engineering (Data Science)</i>	CGPA: 8.32
Narayana Junior College	2021–2023
<i>Intermediate – MPC</i>	Score: 9.5
Shree Bhavishya The Montessori School	2020
<i>Secondary School Certificate (SSC)</i>	Score: 8.3

Technical Skills

Programming: Python, Java, JavaScript, C++, SQL
AI / Data: Generative AI, LLM Concepts, AI Automation, Prompt Engineering, Machine Learning Fundamentals, Data Visualization, Power BI, NumPy, Pandas
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL, Firebase
Developer Tools: Git, GitHub, Postman, VS Code, Android Studio
Cloud / Deployment: Render, Vercel, Netlify
Coursework: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

AI & Software Projects

AI GitHub PR Code Reviewer – Major Project Prototype	<i>In Progress</i>
- Developed a prototype for automated GitHub pull-request code review focused on AI-assisted code analysis, intelligent feedback, and developer productivity. - Designed the workflow to analyze changed code and generate structured review feedback, with emphasis on code quality and security-oriented review. - Exploring Agentic AI, LLM-based analysis, GitHub integration, RAG concepts, and automated review workflows as part of the major project.	
BusinessFlow – AI-Powered Business Management Platform	<i>Full Stack</i>
- Built a full-stack business platform covering CRM, customer management, leads, orders, inventory, invoices, analytics, and KPI tracking. - Implemented REST APIs, JWT authentication, role-based application workflows, dashboards, and business performance visualization. - Integrated AI-oriented automation concepts to improve business workflows and reduce repetitive operational tasks. Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, REST APIs, Chart.js	
MANGO – AI-Powered Productivity & Goal Management Platform	<i>Full Stack</i>
- Developed a productivity platform for goal planning, task management, habit tracking, progress tracking, and AI-powered recommendations. - Designed reusable frontend components and backend REST APIs with authentication and persistent user data. Tech: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, REST APIs, AI Integration	
LocalKart – Platform for Local Businesses	<i>Full Stack</i>
- Designed a digital marketplace connecting local businesses with customers through structured seller profiles, seller verification, and trust-focused discovery. - Built the application architecture with scalable backend services and database integration for future feature expansion. Tech: React.js, Node.js, MongoDB	

Campus Bytes – College Canteen Food Ordering SystemFull Stack

- Built a MERN-based food ordering application with authentication, menu browsing, cart, order management, order tracking, inventory, and admin dashboard.
- Tech:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

Experience

MERN Stack Developer Intern – SkillBridge ProgramMay–Jul 2026

Virtual Internship

- Developed MERN-stack applications and REST APIs using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication, backend API integration, Git/GitHub workflows, and application debugging.

Python Developer Intern – QSkill2 Months

Python Development Internship

- Worked on Python development tasks and strengthened practical programming, problem-solving, debugging, and application development skills.
- Applied Python concepts to build and improve software solutions during the internship.

Android Developer Virtual Intern – AICTE–EduSkillsJan–Mar 2025

Virtual Internship

- Developed Android applications using Kotlin and Android Studio with API integration and local data storage.
- Worked on application performance, debugging, and mobile application development workflows.

Certifications

- Google Cloud:** Introduction to Generative AI, Large language Models
- Oracle:** Generative AI Global Certification
- Anthropic:** Claude 101
- MongoDB:** MongoDB Basics
- MongoDB:** Node.js Developer Path
- SmartBridge:** Full Stack Developer – MERN Stack Virtual Internship
- Zscaler:** Zscaler Trusted Cloud Associate (ZTCA)

Leadership & Extracurricular Activities

Coders Club – Joint Secretary & Event Lead1 Year

College Technical Club

- Served as Joint Secretary and contributed to planning, coordinating, and leading multiple technical events and student activities.

Datanauts – Department Club Member

CSE (Data Science) Department Club

- Participated in department-level technical activities, peer learning, and data/technology-focused initiatives.

Project Leadership

Project Lead – BusinessFlow

- Led the development of BusinessFlow from application planning through implementation, coordinating project modules, feature priorities, and technical integration.
- Focused on building a practical business-management solution combining full-stack development, analytics, and AI-oriented automation.

Areas of Interest

AI Engineering, Generative AI, Large Language Models (LLMs), AI Automation, Machine Learning, Data Science, AI-Powered Applications, Backend Engineering, Intelligent Automation, Software Engineering

Additional Information

Languages: English, Telugu , Hindi
Career Focus: AI Engineer, Generative AI Engineer, AI Automation Engineer, AI/ML Intern, Python Developer
Core Strengths: Problem Solving, Rapid Learning, Project Development, Team Collaboration, Technical Event Leadership
